

Napoli Culinaria

Naples and the surrounding areas of Caserta, Sorrento, and the Amalfi Coast have long been considered the culinary capital of Southern Italy. This is the land of 'O Sole Mio' where fertile soil gives rise to ripe 'San Marzano' tomatoes, juicy 'Feminello' lemons, and the buffalo milk used to prepare delicious mozzarella. This specially designed tour is designed to excite your senses as you explore the rich and diverse splendors of the cuisine, wine, and culture of this historically important region of Italy.

The '**Napoli Culinaria**' itinerary features seven nights in the picturesque town of Sorrento with daily excursions to the most important attractions in the area such as Pompeii, Mount Vesuvius, the romantic Amalfi Coast, Positano, Ravello, Vietri sul Mare, and Caserta. This itinerary also includes a visit to the enchanted island of Capri.

We can arrange a stop at an organic farm to learn more about the locally-produced specialties, with a tasting of their delicious products, including cheeses, caciottina, and salami. We also like our clients to learn first-hand how a typical dairy farm produces delicious mozzarella cheese from the milk of the local buffalo.

For your cultural interest, we can include an excursion to the town of Caserta for a viewing of the Royal Palace. Second only to Versailles in size, this palace was built for Charles III of Bourbon. It boasts 1,200 rooms and almost 1,800 windows.

Another unforgettable culinary experience for your group will be a private visit at the Castel Campagnano in the Caserta outskirts. Here, learn more about the locally-produced wines from this fertile land. The visit will be followed by a tasting of this private estate's collection.

An additional exciting feature of this program is a specially arranged demonstration at an internationally-acclaimed culinary school, to be followed by a gourmet dinner. During the class, our instructor will share some of their special culinary secrets so that the group participants can proudly dazzle their family and friends upon return home.

Our **Napoli Culinaria** would not be complete without a visit to the city of Naples to view the magnificent sights of this Bourbon city and to enjoy a traditional Neapolitan pizza. This simple yet delicious pizza, consisting of fresh mozzarella, tomato sauce, and basil, has managed to outlast many other well-known specialties for its classic blend of ingredients.

The above features are only a few highlights of our custom-designed, seven night **Napoli Culinaria**. We can include terrific bilingual tour escorts, private car/van transportation with English-speaking drivers, first-class and deluxe hotel accommodations, and super-saving airline rates.
